

Town Hall Committee Organizational Meeting @ Mary Herbert Room, 6:30 P.M. January 18<sup>th</sup> 2007

Present Red Mabey, Henry Miller, Ben King, Steve Miller, Rich Goeselt

Absent Craig Salomon

The following organization was voted in

Chair Paul Cuetara

Vice-Chair & Secretary, Rich Goeselt

Rich Goeselt summarized for the group what he understood as the two objectives that had general agreement from the two previous meetings

- 1.0 That the most urgent repairs to the hall should be those that must be accomplished regardless of whether the Hall remains in it's present location long term or moved to a new location. That decision would hopefully be made as a result of a complete needs analysis of the entire town complex and plans for the town lot adjacent to the library.
- 2.0 The most urgent use of the town hall is to provide additional meeting space to town boards and committees. To adequately meet this need interior alterations are needed to lessen the echo box effect of the room. Red Mabey suggested obtaining acoustical engineering advice into possible floor and window treatments.

The committee felt Paul should organize the next meeting within the next two weeks and that the location would best be at the town hall so that committee members could better evaluate the most pressing maintenance and repair needs.

Respectfully submitted by,

Rich Goeselt
